[Amenhotep III](#) Sep 17 2021 This book follows the life story of Amenhotep III, one of the most important rulers of ancient Egypt, from his birth and into the afterlife. Amenhotep III ruled for thirty-eight years, from c.1391-1353 BC, during the apex of Egypt's international and artistic power. Arielle P. Kozloff situates Amenhotep in his time, chronicling not only his life but also the key political and military events that occurred during his lifetime and reign, as well as the evolution of religious rituals and the cult of the pharaoh. She further examines the art and culture of the court, including its palaces, villas, furnishings and fashions. Through the exploration of abundant evidence from the period, in the form of both textual and material culture, Kozloff richly re-creates all aspects of Egyptian civilization at the height of the Mediterranean Bronze Age.

[Proceedings of the Ninth International Dakhleh Oasis Project Conference](#) Jul 16 2021 This new volume in the Oasis Papers series marks the 40th anniversary of archaeological fieldwork in the Dakhleh Oasis in Egypt's Western Desert under the leadership of Anthony J. Mills and presents a synthesis of the current state of our knowledge of the oasis and its interconnections with surrounding regions, especially the Nile Valley. The papers are by distinguished authorities in the field and postgraduate students who specialise in different aspects of Dakhleh and presents an almost complete survey of the archaeology of Dakhleh including much unpublished, original material. It will be one of the few to document a specific part of modern Egypt in such detail and thus should have a broad and lasting appeal. The content of some of the papers is unlikely to be published in any other form elsewhere. Dakhleh is possibly the most intensively examined wider geographic region within Egypt.

[Black Sexualities](#) Oct 26 2019 Why does society have difficulty discussing sexualities? Where does fear of Black sexualities emerge and how is it manifested? How can varied experiences of Black females and males who are lesbian, gay, bisexual, transgender (LGBT), or straight help inform dialogue and academic inquiry? From questioning forces that have constrained sexual choices to examining how Blacks have forged healthy sexual identities in an oppressive environment, Black Sexualities acknowledges the diversity of the Black experience and the shared legacy of racism. Contributors seek resolution to Blacks' understanding of their lives as sexual beings through stories of empowerment, healing, self-awareness, victories, and other historic and contemporary life-course panoramas and provide practical information to foster more culturally relative research, tolerance, and acceptance.

**A Companion to Greco-Roman and Late Antique Egypt** Jan 28 2020

An authoritative and multidisciplinary Companion to Egypt during the Greco-Roman and Late Antique period With contributions from noted authorities in the field, A Companion to Greco-Roman and Late Antique Egypt offers a comprehensive resource that covers almost 1000 years of Egyptian history, starting with the liberation of Egypt from Persian rule by Alexander the Great in 332 BC and ending in AD 642, when Arab rule started in the Nile country. The Companion takes a largely sociological perspective and includes a section on life portraits at the end of each part. The theme of identity in a multicultural environment and a chapter on the quality of life of Egypt's inhabitants clearly illustrate this objective. The authors put the emphasis on the changes that occurred in the Greco-Roman and Late Antique periods, as illustrated by such topics as: Traditional religious life challenged; Governing a country with a past: between tradition and innovation; and Creative minds in theory and praxis. This important resource: Discusses how Egypt became part of a globalizing world in Hellenistic, Roman and Byzantine times Explores notable innovations by the Ptolemies and Romans Puts the focus on the longue durée development Offers a thematic and multidisciplinary approach to the subject, bringing together scholars of different

disciplines Contains life portraits in which various aspects and themes of people's daily life in Egypt are discussed Written for academics and students of the Greco-Roman and Late Antique Egypt period, this Companion offers a guide that is useful for students in the areas of Hellenistic, Roman, Byzantine and New Testament studies.

**The Oxford World History of Empire** Sep 05 2020 This is the first world history of empire, reaching from the third millennium BCE to the present. By combining synthetic surveys, thematic comparative essays, and numerous chapters on specific empires, its two volumes provide unparalleled coverage of imperialism throughout history and across continents, from Asia to Europe and from Africa to the Americas. Only a few decades ago empire was believed to be a thing of the past; now it is clear that it has been and remains one of the most enduring forms of political organization and power. We cannot understand the dynamics and resilience of empire without moving decisively beyond the study of individual cases or particular periods, such as the relatively short age of European colonialism. The history of empire, as these volumes amply demonstrate, needs to be drawn on the much broader canvas of global history. Volume Two: The History of Empires tracks the protean history of political domination from the very beginnings of state formation in the Bronze Age up to the present. Case studies deal with the full range of the historical experience of empire, from the realms of the Achaemenids and Asoka to the empires of Mali and Songhay, and from ancient Rome and China to the Mughals, American settler colonialism, and the Soviet Union. Forty-five chapters detailing the history of individual empires are tied together by a set of global synthesizing surveys that structure the world history of empire into eight chronological phases.
