The First Crusade Aug 17 2021 According to tradition, the First Crusade began at Pope Urban II's instigation and culminated in July 1099, when western European knights liberated Jerusalem. But what if the First Crusade's real catalyst lay far to the east of Rome? Countering nearly a millennium of scholarship, Peter Frankopan reveals the First Crusade's untold history.

The Late Middle Ages Aug 05 2020 Surveys the political history of medieval Europe, describes life in England and Spain, and looks at the Holy Roman Empire, the crusades, and the Byzantine Empire

The Age of the Crusades Dec 21 2021 Originally published: London, England: Addison Wesley Longman Ltd., 1986.

An Empire of Memory Aug 24 2019 Beginning shortly after Charlemagne's death in 814, the inhabitants of his historical empire looked back upon his reign and saw in it an exemplar of Christian universality - Christendom. They mapped contemporary Christendom onto the past and so, during the ninth, tenth, and eleventh centuries, the borders of his empire grew with each retelling, almost always including the Christian East. Although the pull of Jerusalem on the West seems to have been strong during the eleventh century, it had a more limited effect on the Charlemagne legend. Instead, the legend grew during this period because of a peculiar fusion of ideas, carried forward from the ninth century but filtered through the social, cultural, and intellectual developments of the intervening years. Paradoxically, Charlemagne became less important to the Charlemagne legend. The legend became a story about the Frankish people, who believed they had held God's favour under Charlemagne and held out hope that they could one day reclaim their special place in sacred history. Indeed, popular versions of the Last Emperor legend, which spoke of a great ruler who would reunite Christendom in preparation for the last battle between good and evil, promised just this to the Franks. Ideas of empire, identity, and Christian religious violence were potent reagents. The mixture of these ideas could remind men of their Frankishness and move them, for example, to take up arms, march to the East, and reclaim their place as defenders of the faith during the First Crusade. *An Empire of Memory* uses the legend of Charlemagne, an often-overlooked current in early medieval thought, to look at how the contours of the relationship between East and West moved across centuries, particularly in the period leading up to the First Crusade.

The Fourth Crusade Oct 19 2021 The Fourth Crusade (1202-4) was one of the key events in medieval history The fall of Constantinople to the Venetians and the soldiers of the fourth crusade in April 1204 was its climax. It ensured that Byzantium's days as a great power were over. It equally ensured that westerners would dominate the Levant - the lands of the old Byzantine Empire - until the end of the middle ages. This book asks just how important was the Fourth as a turning point in the Middle East.. The broad setting is the encounter of Byzantium with the West within the framework of the crusades. Differences of outlook and interest meant that this encounter was soon overburdened with mutual distrust. 1204 was some kind of a solution and created situations scarcely conceivable even two years before when the fourth crusade set sail from Venice.

The Crusades Sep 05 2020

Warfare in the Age of Crusades May 14 2021 Warfare in the Age of Crusades: The Latin East explores in fascinating detail the key campaigns, battles and sieges that shaped the crusading period of the Middle Ages, giving special attention to military technologies, tactics and strategies. Key personalities and political factors are addressed, including the role of papal monarchy in initiating the crusading expeditions, the relationship between Catholic Europe and the Byzantine empire, the role of the religious military orders, and Islamic and Mongol military capabilities. Chapters are devoted to each of the major crusades to the Levant - First, Second, Third and Fourth crusades - and an analysis of the Islamic response. The rise of the Mamluks in Egypt, with their innovative military organization, is covered, as are the failed Egyptian and Tunisian campaigns. The concluding chapters describe the Mongol campaigns in the Levant, the Mamluk response, and the final siege of Acre in 1291. This original and perceptive study of a key stage in medieval military history features regional, strategic and multi-phase tactical maps that illuminate the narrative and provide a valuable resource for students, historians and wargamers alike.

A History of Medieval Europe Mar 31 2020 'Probably the best "buy" among recent works for one who comes to medieval history for the first time.' History (about the second edition) Consisting of two parts, this book successfully conveys the importance of the distant past in understanding our modern world. The first part; The Dark Ages, examines the impact of the Barbarian invasions on Constantine's Christianized empire, and the gradual emergence, by the end of the ninth century, of a new social, economic and political order. There are important chapters on the on the Church and the Papacy, the coming of Islam, and the rise and fall of the Frankish Empire. The second part; The High Middle Ages, takes the reader from the Saxon Empire through to an examination of the European economy in the mid-thirteenth century. Important topics covered in this period include the spread of monasticism, the reform of the Papacy, the crusades, and feudal monarchy. This has been the best introductory book in medieval history for fifty years, and still is.

Enquiring History: The Crusades: Conflict and Controversy, 1095-1291 Dec 29 2019 Think more deeply and work more independently at A

level History through a carefully thought-out enquiry approach from SHP. Enquiring History: It makes you think! The OFSTED report on school history suggests that the current generation of A Level students have been poorly served by exam-based textbooks which spoon-feed students while failing to enthuse them or develop deeper understandings of studying History The Schools History Project has risen to this challenge with a new series for the next generation. Enquiring History is SHP's fresh approach to Advanced Level History that aims: - To motivate and engage readers - To help readers think and gain independence as learners - To encourage enquiry, and deeper understanding of periods and the people of the past - To engage with current scholarship - To prepare A Level students for university Key features of each Student book - Clear compelling narrative - books are designed to be read cover to cover - Structured enquiries - that explore the core content and issues of each period - 'Insight' panels between enquiries provide context, overview, and extension - Full colour illustrations throughout The Crusades: Conflict and controversy 1095-1291 There has never been a more important time to study the Crusades. Religious conflict is a fact of life in the twenty-first century no less than it was in the medieval world. And yet the world of the Crusades is so different from ours that it takes a massive leap of imagination to make sense of these events. This book takes on that challenge: opening a window onto the 12th and 13th century worlds to understand what on earth was going on. It examines the Crusades themselves; the controversies surrounding them; and the past and current re-interpretations of the period. Web-based support includes - lesson planning tools and guidance for teachers available from the SHP website

<http://www.schoolhistoryproject.org.uk/Publishing/BooksSHP/BooksALvlEHS.html> - eBooks for whole class teaching or individual student reading available from eBook retailers

The Fourth Crusade Apr 12 2021 This revised and expanded edition of The Fourth Crusade gives fresh emphasis to the events in Byzantium and the Byzantine response to the actions of the Crusaders.

Byzantium Jul 04 2020 For a thousand years Byzantium was a byword for imperial power, gold and international trade. This extraordinary but now little known empire combined paganism and classical Greek and Roman learning with orthodox Christianity, and for centuries held back the armies of Islam, making possible the transition from antiquity to modern Europe. From the prominence of eunuchs to the secret of 'Greek fire', it was surprising, creative and audacious. Many long tomes have plodded through the emperors and battles of Byzantium, from the founding of its magnificent capital of Constantinople (today's Istanbul) in 330, to its fall to the Ottoman Turks in 1453. Judith Herrin takes a new approach. In a concise and compelling account she focuses each short chapter around a theme such as a building (the great church of Hagia Sophia), luxury silks, iconoclasm, the fork, the crusades, or an individual, using them to take the reader on a journey from ancient to medieval times.

The Crusades Jul 16 2021 Crusading fervor gripped Europe for more than 200 years, creating one of the most extraordinary episodes in world history. But were the Crusades the first steps in European colonialism, an attempt at ethnic cleansing, a manifestation of religious zeal—or all three? Bringing together issues of colonialism, cultural exchange, and economic exploitation, scholar Christopher Tyerman challenges our assumptions about the Crusades and encourages us to re-evaluate the relationship between past and present.

The Crusades and the Expansion of Catholic Christendom, 1000-1714 Dec 01 2022 The Crusades and the Expansion of Catholic Christendom, 1000-1714 is a fascinating and accessible survey that places the medieval Crusades in their European context, and examines, for the first time, their impact on European expansion. Taking a unique approach that focuses on the motivation behind the Crusades, John France chronologically examines the whole crusading movement, from the development of a 'crusading impulse' in the eleventh century through to an examination of the relationship between the Crusades and the imperialist imperatives of the early modern period. France provides a detailed examination of the first Crusade, the expansion and climax of crusading during the twelfth and thirteenth centuries and the failure and fragmentation of such practices in the fourteenth and fifteenth centuries. Concluding with an assessment of the influence of the Crusades across history, and replete with illustrations, maps, timelines, guides for further reading, and a detailed list of rulers across Europe and the Muslim world, this study provides students with an essential guide to a central aspect of medieval history.

First Crusader Nov 27 2019 Identifies the beginnings of the crusades in the seventh century, during which Persia sought to conquer the Byzantine Empire, for which the emperor Heraclius, whose career coincided with the life of the prophet Mohammed, used Christian propaganda to overcome Islam. 10,000 first printing.

Michaud's History of the Crusades Feb 29 2020

Encyclopedia of the Crusades Feb 20 2022 Presents an encyclopedia of the Crusades, including entries for Islamic and European topics, biographical portraits, extracts from primary sources, and a time line.

The Crusades Jun 14 2021

Knights of the Cross Nov 07 2020 It's the eleventh century and Islam, born from the sands of the Arabian Desert, has spread from Syria to Spain. Muslims now rule a large part of what was once the Roman Empire. Eude de Châtillon, a monk at the monastery of Cluny, France, does not like what he sees. He leads expeditions to free Spain from its Muslim rulers. When he becomes Pope Urban II, he urges good Christians everywhere to free Jerusalem, and so the crusades begin. As pope, however, he is not able to lead the fight, so he gives authority to Peter the Hermit, a popular priest. At Peter's bidding, thousands of peasants join the crusade, which was named "The Popular Crusade." Fierce battles are fought throughout Spain, the Holy Land, and elsewhere as Christians and Muslims compete for power. The repercussions of this historic struggle are still evident today in the continued fighting in the Middle East; Muslim attitudes about the Western world and memories of the September 11 attacks. Knights of the Cross is the complete report of all the Crusades and a must-read for anyone struggling to understand how religious conflicts of the past have shaped the world today.

A History of the Crusades: The First Crusade and the foundation of the Kingdom of Jerusalem Jun 26 2022

God Wills It! Oct 07 2020 The dramatic history of the movement which throughout much of the Middle Ages sought to establish Christianity in the place of its birth. A tale of wordy ambition and spiritual sacrifice, pride and humility, extraordinary valor and despicable cowardice.

The Crusades Jul 28 2022 Hodges contrasts Islamic and Christian sources in this account of bravery, trickery and treachery in the sands of the Holy Land. Stretching from the First Crusade in 1097 to the fall of Constantinople in 1453, this narrative explains how fighting monks, Byzantine emperors, Saracen warriors and Italian traders forged the state of Outremer at the crossroads of the medieval world.

The Armenian Kingdom in Cilicia During the Crusades May 26 2022 This unique study bridges the history of the Crusades with the history of Armenian nationalism and Christianity, providing a history of the Crusades merged with a history of the Armenian Christians, who were pivotal in the founding of Crusader principalities and of the Anatolian kingdom of Cilicia.

Sketches of the Crusades Jan 28 2020

The Crusades May 02 2020

The Crusades, Christianity, and Islam Sep 29 2022 Claiming that many in the West lack a thorough understanding of crusading, Jonathan Riley-Smith explains why and where the Crusades were fought, identifies their architects, and shows how deeply their language and imagery were embedded in popular Catholic thought and devotional life.

The Crusades Dec 09 2020 The Crusades were fought by "Latin" Christians against Muslims, pagans, and even fellow Christians whom they believed were threatening the existence of their Christian faith.

Crusades Mar 24 2022 *Crusades* covers the seven hundred years from the First Crusade (1095-1102) to the fall of Malta (1798) and draws together scholars working on theatres of war, their home fronts and settlements from the Baltic to Africa and from Spain to the Near East and on theology, law, literature, art, numismatics and economic, social, political and military history. Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East. Particular attention is given to the publication of historical sources - narrative, homiletic and documentary - but studies and interpretative essays are welcomed too. *Crusades* also incorporates the Society's Bulletin. The editors are Professor Jonathan Phillips, Royal Holloway, University of London, UK; Iris Shagrir, The Open University of Israel; Professor Benjamin Z. Kedar, Hebrew University of Jerusalem, Israel; and Nikolaos G. Chrissis, Democritus University of Thrace, Greece.

Byzantium and the Crusades Oct 31 2022 This new edition of *Byzantium and the Crusades* provides a fully-revised and updated version of Jonathan Harris's landmark text in the field of Byzantine and crusader history. The book offers a chronological exploration of Byzantium and the outlook of its rulers during the time of the Crusades. It argues that one of the main keys to Byzantine interaction with Western Europe, the Crusades and the crusader states can be found in the nature of the Byzantine Empire and the ideology which underpinned it, rather than in any generalised hostility between the peoples. Taking recent scholarship into account, this new edition includes an updated notes section and bibliography, as well as significant additions to the text: - New material on the role of religious differences after 1100 - A detailed discussion of economic, social and religious changes that took place in 12th-century Byzantine relations with the west - In-depth coverage of Byzantium and the Crusades during the 13th century - New maps, illustrations, genealogical tables and a timeline of key dates *Byzantium and the Crusades* is an important contribution to the historiography by a major scholar in the field that should be read by anyone interested in Byzantine and crusader history.

A History of the Crusades, Volume 2 Jan 22 2022 This book is a volume in the Penn Press Anniversary Collection. To mark its 125th anniversary in 2015, the University of Pennsylvania Press rereleased more than 1,100 titles from Penn Press's distinguished backlist from 1899-1999 that had fallen out of print. Spanning an entire century, the Anniversary Collection offers peer-reviewed scholarship in a wide range of subject areas.

The Crusade of Frederick Barbarossa Sep 25 2019 This is the first English translation of the main contemporary accounts of the Crusade and death of the German Emperor Frederick I Barbarossa (ruled 1152-90). The main text here, the 'History of the Expedition of the Emperor Frederick', was written soon after the events described, and is a crucial, and much under-used source for the Third Crusade. It narrates the preparations and recruitment for the Crusade, and the Crusade itself: the journey through the Balkans and the gruelling march through Asia Minor, beset by Turkish attack, until its arrival at Antioch on 21st July 1190, eleven days after the emperor had drowned while crossing a river in Cilician Armenia. The 'History' gives a vivid account of the sufferings of the German army as it traversed Asia Minor and appears to be, or to be based upon an eyewitness record, cast in the form of (often) a daily memoir. A number of subsidiary texts also translated illustrate and expand this main account, and place the crusade in context.
