Who were John Alexander Dowie, Maria Woodworth-Etter, and Smith Wigglesworth? Who were Charles Price, William Branham, Aimee Semple McPherson, and A.A. Allen? Who were these people who carried the mantle of the healing evangelist in the twentieth century? The era of the great tent meetings and healing revivals was covered with both glory and controversy. Don Stewart experienced it first-hand -- he was mentored by A.A. Allen in the 1960's. His eyewitness accounts, personal remembrances, and documented stories reveal the truth of the tragedies and the triumphs of many of these men and women of God. The day of huge tent meetings may be over, but the mighty power and presence of the Holy Spirit is still in the earth! God is still using human vessels to demonstrate His love and grace to hurting people. This handsome little book is unique in that it is about practical spirituality and is written, like Dr. Jampolsky's other books, in very simple, down-to-earth, easy-to-understand language. It explains why many of us find it so difficult to forgive, why we should forgive, how to forgive, and why we don't forgive. Forgiveness also explains how the mind works in this process and points out the toxic, negative side effects of being unforgiving and the havoc it can play on our body and on our life. It also shows the physical and spiritual benefits of forgiving. Originally published in 1993 by Nataraj as A Passion to Heal, this popular companion and guide to deep inner healing is now revised and updated for a new generation of readers as My Big Book of Healing. Many people are dealing with addiction and abuse issues. Others suffer from physical ailments. Some are recovering from the emotional fallout of growing up in a dysfunctional family. My Big Book of Healing provides one-stop shopping for anyone in search of emotional and physical health. Renowned author and spiritual teacher Echo Bodine shows readers how they can heal from eighteen illnesses, addictions, and "distractions," including: □ the debilitating power of secrets □ chemical dependencies □ excessive weightloss or weight gain □ stress and depression □ fear and resentment □ loss and grieving After exploring these common personal issues, Bodine offers concrete, easy-to-understand guidance on where and how to find the deep inner healing necessary to overcome these issues. She takes readers through such healing solutions as 12-Step groups to Lifework clinics to therapy and good medical help. Dr. Jampolsky believes there is another way of looking at life that makes it possible for us to walk through this world in love, at peace and without fear. This other way requires no external battles, but only that we heal ourselves. It is a process he calls "attitudinal healing," because it is an internal and primarily mental process. Jampolsky believes that attitudinal healing, when properly practiced, will allow anyone, regardless of her circumstances, to begin experiencing the joy and harmony that each moment holds, and to start her journey on a path of love and hope. The mind can be retrained. Within this fact lies our freedom. Our attitudes determine whether we experience peace or fear, whether we are well or sick, free or imprisoned. Love, in its true meaning, is the attitude that this book is about. Love is total acceptance and total giving—with no boundaries and no exceptions. Love, being

the only reality, cannot be transformed. It can only extend and expand. It unfolds endlessly and beautifully upon itself. Love sees everyone as blameless, for it recognizes the light within each one of us is. Love is the total absence of fear and the basis for all attitudinal healing. The principles of attitudinal healing have been expanded since Teach Only Love was first published in 1983. There are now twelve principles, which are used in the 150 Centers for Attitudinal Healing around the world. Dr. Jampolsky believes that these principles have a universal appeal that crosses cultural and religious barriers. He has repeatedly seen how people's lives have transformed when these principles became their heartbeat and their way of communicating with others. An examination of the work of the Brazilian healer João Teixeira de Faria, describing the healing services he conducts at his home and abroad, and presenting a look at the experiences of individuals who have been treated by him for various physical ailments. This is a "save-the-planet" book. More and more of us are realizing we are facing humanity's greatest challenge. Over the next two decades, the global warming climate crisis threatens to bring about the end of our Anthropocene Epoch - of us and virtually every multicellular life form. Stephen Erickson introduces you to exquisite creatures, human and non-human. The challenges they face reveal the immensity of the threat facing each of us - and its urgency. Widespread awareness is essential. Most of us don't realize who our Arch-Villain is - the main cause of our predicament. We all need to. And we can't win this fight without a clear understanding of the one solution we have. Key to achieving this solution rapidly and at necessary scale are Five Compassions: for Animals, for Self, for the Land, for Community, and for Democracy. Compassionate activism can create The Great Healing: the healing of our planet and the halting of the ongoing sixth great extinction. More than a "call-to-action" book, more than a book of compelling stories, this is a book with a plan. Four esteemed thought leaders have joined Stephen, contributing 3 new short essays, photos, and a poem: Wendell Berry (essayist, novelist, poet, farmer, national

treasure), Joel Fuhrman, M.D. (author of 6 New York Times bestsellers including Eat to Live and The End of Diabetes), Alan Lewis (guides Food and Agriculture Policy for Natural Grocers), and investigative photographer Jo-Anne McArthur, whose images are as heartbreaking as they are beautiful. There is a reason you were born here in human form at this very special time. You matter. You are part of a special generation. You can create the future you want to see. Find your voice, use it. Join us in what will become the most important cause of all of humanity's endeavors to date. You have the power. More than you realize. You'll see." An exceptionally well and persuasively written clarion call to personal and collective action, *The Great Healing - Five Compassions That Can Save Our World* is unreservedly and urgently recommended." - Midwest Book Review

Within each of us there is a core discovery that needs to be made if we are going to become well. In a direct yet compassionate style, Misa Hopkins reveals the reason so many of us don't get well even though we have tried a variety of treatments and solutions. There is a growing acknowledgement in contemporary spiritual thought that we are the creators of our own reality, including our health. Hopkins shares real-life stories demonstrating that healing is not just the result of finding the right cure, but rather a personal opportunity to create wellness by engaging the sacred flow of Divine consciousness. Without promoting any particular healing methodology or spiritual practice, she provides us with simple steps a guidebook for accessing the healing power and wisdom that already lives inside. Hopkins candidly takes us into the successes of her own healing as she uncovered and transformed secret needs being met through her life-challenging illnesses. She shows us how illness can actually meet profound subconscious emotional needs, causing us to remain sick, and then she teaches us how to invite our subconscious worlds into alignment with our conscious desires. The result of this alignment is the ultimate root of all healing: a new level of our own Divine awareness and power awakened. "If everyone seeking medical and holistic help read this and addressed the hidden barriers to healing, they would get healthier faster and with less struggle. I want all my patients to have this book!" Valerie Olmsted, NMD, Host of The Enlightened Medicine Show

While most of us have moments of loving freely and openly, it is often hard to sustain this where it matters most—in our intimate relationships. Why if love is so great and powerful are human relationships so challenging and difficult? If love is the source of happiness and joy, why is it so hard to open to it fully and let it govern our lives? In this book, John Welwood addresses these questions and shows us how to overcome the most fundamental obstacle that keeps us from experiencing love's full flowering in our lives. Perfect Love, Imperfect Relationships begins by showing how all our relational problems arise out of a universal, core wounding around love that affects not only our personal relationships but the quality of life in our world as a whole. This wounding shows up as a pervasive mood of unlove—a deep sense that we are not intrinsically lovable just as we are. And this shuts down our capacity to trust, so that even though we may hunger for love, we have difficulty opening to it and letting it circulate freely through us. This book takes the reader on a powerful journey of healing and transformation that involves learning to embrace our humanness and appreciate the imperfections of our relationships as trail-markers along the path to great love. It sets forth a process for releasing deep-seated grievances we hold against others for not loving us better and against ourselves for not being better loved. And it shows how our longing to be loved can magnetize the great love that will free us from looking to others to find ourselves. Written with penetrating realism and a fresh, lyrical style that honors the subtlety and richness of our relationship to love itself, this revolutionary book offers profound and practical guidance for healing our lives as well as our embattled world. At one time, heart disease was a death sentence. In *The Heart Healers*, world renowned cardiologist Dr. James Forrester tells the story of the mavericks and rebels who defied the accumulated medical wisdom of the day to begin conquering heart disease. By the middle of the 20th century, heart disease was killing millions and, as with the Black Death centuries before, physicians stood helpless. Visionaries, though, had begun to make strides earlier. On Sept. 7, 1895, Ludwig Rehn successfully sutured the heart of a living man with a knife wound to the chest for

the first time. Once it was deemed possible to perform surgery on the heart, others followed. In 1929, Dr. Werner Forssman inserted a cardiac catheter in his own arm and forced the x-ray technician on duty to take a photo as he successfully threaded it down the vein into his own heart...and lived. On June 6, 1944 - D-Day - another momentous event occurred far from the Normandy beaches: Dr. Dwight Harken sutured the shrapnel-injured heart of a young soldier, saved his life and the term "cardiac surgeon" born. Dr. Forrester tells the story of these rebels and the risks they took with their own lives and the lives of others to heal the most elemental of human organs - the heart. The result is a compelling chronicle of a disease and its cure, a disease that is still with us, but one that is slowly being worn away by "The Heart Healers". This book takes a look into how drugs and alcohol can destroy the mind. In this book, Gerald talks about his journey from success to dark times and back to good mental health. Original. A hope-filled and profoundly simple book that speaks directly to those who want to be of service in their church or community, but have found the traditional ways often threatening and ineffective. In this book, Henri Nouwen combines creative case studies of ministry with stories from diverse cultures and religious traditions in preparing a new model for ministry. Weaving keen cultural analysis with his psychological and religious insights, Nouwen has come up with a balanced and creative theology of service that begins with the realization of fundamental woundedness in human nature. Emphasizing that which is in humanity common to both minister and believer, this woundedness can serve as a source of strength and healing when counseling others. Nouwen proceeds to develop his approach to ministry with an analysis of sufferings—a suffering world, a suffering generation, a suffering person, and a suffering minister. It is his contention that ministers are called to recognize the sufferings of their time in their own hearts and make that recognition the starting point of their service. For Nouwen, ministers must be willing to go beyond their professional role and leave themselves open as fellow human beings with the same wounds and suffering—in the image of Christ. In other words, we heal from our own wounds. Filled with examples from everyday experience, The Wounded Healer is a thoughtful and insightful guide that will be welcomed by anyone engaged in the service of others. Twisted Fables for Twisted Minds is a homage to the surreal and absurd hidden in the folds of the everyday, yet all aspects of this powerfully preposterous novel are based on true stories.
