Worlds of Common Prayer Nov 24 2019 Worlds of Common Prayer exposes the surprisingly radical potential of nineteenth- and twentieth-century book-length liturgical poetry. Major authors as dissimilar as Christina Rossetti and T.S. Eliot used the Anglican liturgical calendar as a weapon to break the order of clock time and destabilize the secular world order.

Agnes Chase's First Book of Grasses Oct 28 2022 For almost seventy-five years, Agnes Chase's First Book of Grasses has been the classic guide to the structure of this complex group of plants. Clearly written and copiously illustrated with line drawings, the book is accessible to those with little or no botanical training, yet it also is respected by botanists as an authoritative introduction to agrostology. Last updated in 1959, the book now has been thoroughly revised to reflect current scientific knowledge, nomenclature, and classification. Divided into twelve lessons, the guide first surveys the basic vegetative and reproductive parts of a grass plant, then in succeeding lessons takes up increasingly more complex modifications.

Formally recognized groups of grasses are discussed in a taxonomic context, with the principal focus on grass structures, particularly those of inflorescences and spikelets. Virtually all of the species discussed are illustrated with detailed line drawings. With the addition in this edition of a lesson on bamboos, coverage now extends to tropical regions and encompasses all major groups of grasses. The book also includes a short biography of Agnes Chase in the foreword and, for the first time in this edition, a glossary accompanies the appendices on grass classification.

*Field Guide to Grasses of California* Oct 16 2021 This alphabetical guide covers common native and naturalized grasses of California and features over 180 color illustrations to aid identification.

The Cottage of Secrets Dec 26 2019 Alyssa Durtnall and her brother Liam are looking forward to their summer holiday away from school but Liam already bored on the first day of his holiday sees a cat that leads him to a new gypsy encampment in the woods near his home. What follows changes their lives dramatically. Giving them many problems to solve and placing them in some unbelievable situations where they cannot ask for anybody else's help, so have to rely on each other. In a quest to find justice for a community and a culture that is often hated and ridiculed they are placed in grave danger but are determined to fight for what they believe to be right. If they are successful they will bring a much-needed awareness of the value of welcoming diversity for the benefit of all communities. But should they reveal their secret and would anybody believe them?

**The Cedar Key** Feb 08 2021 2021 Faith, Hope, and Love Reader's Choice Award Winner Could the key to Casey's future be hidden in someone else's past? Casey Adams unexpectedly inherits an old Victorian house full of other people's memories. Stuck in a quirky little Mississippi town, Casey's hope for a fresh start died as soon as she had to lay the grandmother she'd just met to rest. But Grandma Ida carried secrets beyond the grave. Before her death Ida carefully planned a trail of clues to help Casey unlock the Macintyre family secrets and finally explain why they abandoned her. But each of Ida's letters will only come from Casey's handsome—and often frustrating—new neighbor. As Casey pieces together the stories behind the objects filling her grandmother's house, she embarks on a heart-stirring journey that rattles her foundations, ignites her faith, and leads her to a startling discovery that will reshape her future. But only if she can face

the lies that have been slowly tearing her apart. Don't miss these other titles from Bestselling Christian author Stephenia H. *Grass Roots Leaders* Apr 22 2022 Grass Roots Leaders galvanizes the emotional enthusiasm of the workforce and taps the wealth of their brain power to create an engine of innovation that ripples through the organization from the bottom up and powers it forward. Tony Buzan, Tony Dottino and Richard Israel pick up a theme they first introduced nearly a decade ago in *The Brain Smart Leader* and document a way of fundamentally changing the perspective and behaviour of leaders and employees in your organization.

Their approach shows how to: \* use the brain's capacity for solving problems and implementing innovative plans to make the organization's vision a reality; \* adopt a three-speed technique - first gear to slow down and allow new learning or support for difficult transition periods. Second gear shifts up to a productive work outcome, and then third gear revs up to champion innovation and change; \* apply a series of proven models for dealing with information overload, making the best use of scarce resources, such as time, and keeping sight of successful outcomes as they are developed. The book accurately captures the current state of thinking in organizations, as well as the latest research on how our brains work, to deliver a radical blueprint for how organizations need to change to survive and what this means to their managers and to their employees. If you are a leader who longs to use the grass roots intellectual capital in your organization but, given the quantity of meetings, e-mail, crises and reorganizations, you simply haven't had the time, this book is for you. And if you are an employee who is sick and tired of daily stress, bad planning and poorly thought-through changes and implementations, customer complaints but no improvements, this book is for you, too. A Brain Smart Revolution in Business starts with one person. You.

**Scotts Lawns** Dec 06 2020 A guide to lawn care provides tips, techniques, and advice for an attractive yard, covering such topics as mowing, weeding, fertilizing, and getting rid of pests.
