An Illustrated Guide to British Upland Vegetation is the first comprehensive, single book on plant communities in the British uplands. It provides concise descriptions of all currently recognised British upland vegetation types. Written by a team comprising some of the most experienced upland field botanists and ecologists in the UK, the book brings together all of the upland communities described in the National Vegetation Classification together with a number of previously undescribed assemblages of plant species. A key enables the reader to classify vegetation in the field. Each vegetation type is described clearly and vividly, with guidance on how to differentiate between similar looking communities. There are detailed sections on the ecology, conservation and management of each community, and up-to-date distribution maps. This is the outcome of many years of field work in the British uplands, much of it supported by the UK Government conservation agencies. The book will be an indispensable guide for anyone with a keen interest in the uplands, notably ecologists, land managers, lecturers, and students, as well as the many organisations actively involved in this special environment. 'Using the Rodwell classification, the authors have blended in their own

ecological expertise to produce - at last - an account of British upland vegetation which is readable, visual and comprehensive. Its value to nature conservation will be immense.' Dr Derek Ratcliffe, former Chief Scientist, Nature Conservancy Council 'Here is an outstanding companion and rich information-source for all whose occupations and interests lead them to the uplands. It not only furnishes a clear and 'user-friendly' guide to the diversity of vegetation types, but also provides a masterly overview of the upland environment.' Professor Charles H. Gimingham, Former Regius Professor of Botany, University of Aberdeen This book is a reprint edition of ISBN-10 1-86107-553-7 (2004). Travel writing, migrant writing, exile writing, expatriate writing, and even the fictional travelling protagonists that emerge in literary works from around the globe, have historically tended to depict mobility as a masculine phenomenon. The presence of such genres in women's writing, however, poses a rich and unique body of work. This volume examines the texts of Francophone women who have experienced or reflected upon the experience of transnational movement. Due to the particularity of their relationship to home, and the consequent impact of this on their experience of displacement, the study of women's mobility opens up new questions in our understanding of the movement from place to place, and in our broader understanding of colonial and postcolonial worlds. Addressing the proximities and overlaps that exist between the experiences of women exiles, migrants, expatriates and travellers, the collected essays in this book seek to challenge the usefulness, relevance or validity of such terms for conceptualising today's complex patterns of transnational mobility and the gendered identities produced therein. Security in Translation proposes an innovative way to capture the evolution, spread and local transformation of threat images in world affairs. Reworking traditional securitization theory, this book develops a coherent new framework for analysis that makes securitization theory applicable to empirical studies. Women in exile disrupt assumptions about exile, belonging, home and identity. For many women exiles, home represents less a place of belonging and more a point of departure, and exile becomes a creative site of becoming, rather than an unsettling state of errancy. Exile may be a propitious circumstance for women to renegotiate identities far from the strictures of home, appropriating a new freedom in mobility. Through a feminist politics of place, displacement and subjectivity, this comparative study analyses the novels of key contemporary Francophone and Latin American writers Nancy Huston, Linda Le, Malika Mokeddem, Cristina Peri Rossi, Laura Restrepo, and Cristina Siscar to identify a new nomadic subjectivity in the lives and works of transnational women today. Britain's greatest queen, Elizabeth I, was also the bewildered, motherless child of an all-powerful father; a captive in the Tower of London; a shrewd politician; a brilliant scholar; a lover of the arts; and, eventually, an icon. In this unforgettable fictional memoir, Elizabeth recounts the emotional turmoil of her life: the loneliness of power; the heartbreak of her lifelong love affair with Robert Dudley; and the terrible guilt of ordering the execution of her cousin, Mary, Queen of Scots. 'Blew my mind... so magically written and most of all that it is based on true events... a hard-hitting, soul-crushing book... I loved every moment of it... immersive, heart-wrenching, I feel emotional writing this review.'

Goodreads reviewer It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life. Norma Cook Everist contends that it is meaningful to say that in ministries of administration, outreach, and pastoral care, the church is functioning as a learning community. Whenever and wherever Christians are being formed into the image of Jesus Christ through ministry, there Christian education is taking place. Christian education is the name we give to that process of formation. Building on this central insight, Everist has written a major new introduction to the tasks and practices of Christian education. Part 1 of the book focuses broadly on what it means to be the church in the world. Part 2 shows how being a learning community requires ongoing growth in faith throughout the span of life. Part 3 shifts focus to the church as it moves into the community and world. explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts. From basic concepts to more technical topics, CIW Site Designer Certification Bible serves not only as a must-have for those taking the Site Designer exam, but an invaluable resource for anyone working on designing Internet sites in today's business world.
