James and Katie Falcon are astonished when a Time Ship appears in the cellar with their long-deceased ancestor Captain Horatio Falcon at the helm. The Ship includes a fresh food supply of two cows. Pandemonium breaks out when Great-Aunt Dorothea is faced with a cow in her lounge. The spooked second cow stumbles into the Time Ship 's controls, despatching the Ship into the past at ' Lost Island ' . But it is swarming with bloodthirsty treasure-seeking pirates and the crew ' s odds of survival appear impossible. Then the youngsters discover the Time Ship ' s mysterious source of power and the odds of their survival and their future change spectacularly. Forfatteren analyserer den turbulente udvikling af relationerne imellem Ledelsen af US Army Aviation og politikerne i 1920-1930, hvor Brigadegeneral William "Billy" Mitchel an en gruppe af Army Air Service Officer forsøgte at skabe et uafhængigt flyvevåben imod præsidentens ønske. Dialectics of 9/11 and the War on Terror: Educational Responses examines how global financial and socio-political systems propagate a lopsided dialectic of current events that influences teachers' pedagogies of 9/11 and the War on Terror. The lopsided dialectic is one that encourages patriotism and militarism, conceals imperialism, and shuts out Muslim voices. Interviews with Muslim American students and high school teachers plus textual analysis of high school U.S. history textbooks demonstrate how curriculum and educators impact marginalized students' identities and sense of belonging. As Muslim students describe their isolation and fear, and teachers discuss the challenges they face, readers will also learn how "us versus them" rhetoric deflects attention from the erosion of democratic values and the underlying socio-economic reasons for the War on Terror. Dialectics of 9/11 and

the War on Terror: Educational Responses is easy-to-read and directed toward teachers, scholars, and curriculum developers, and includes actionable suggestions for teaching these topics in a balanced and holistic way. The ultimate goal of *Dialectics of 9/11 and the War on Terror: Educational Responses* is to grow critical dialectical pedagogy (CDP), a new introduction to the field of critical pedagogy, in order to nurture the next generation of global citizens. *Dialectics of 9/11 and the War on Terror: Educational Responses* can be used in teacher training, curriculum and instruction, multicultural education, secondary social studies education, research in education courses, as well as other areas of instruction.

Breakouts. Dryness. Redness. Oiliness. If you're like most women, you've been on a never-ending quest for perfect skin—or even just good skin—since adolescence. It's a frustrating pursuit to say the least, filled with one disappointing (and expensive) miracle solution after another. Why is it so hard to get good skin? Adina Grigore, founder of the organic skincare line S.W. Basics, would argue that getting clear, calm, happy skin is about much more than products and peels. Or, rather, it's about much less. In *Skin Cleanse*, she guides readers through a holistic program designed to heal skin from the inside out. We tend to think of our skin as a separate entity from the rest of our bodies when in fact it is our largest organ. The state of our skin is a direct reflection of what our bodies look like on the inside. So Adina's program begins as any healthy regime should: with the basics for full-body health. That means eating plenty of fresh, whole foods; drinking more water; getting blood pumping and oxygen flowing to your cells through movement; and giving your skin a chance to repair and regenerate by resting. From there, readers are challenged to a skin cleanse that requires going product-free for twenty-four hours. Once detoxed, Adina then shows us how to overhaul our beauty routine, how to carefully add some products back in, and even how to make our own products at home, with advice and targeted solutions for specific skin conditions such as acne, dry skin, oily skin, and more.

The secret to beautiful, stress-free skin is simple: it's an inside job.

Amelia Beckett is delighted to be a widow. Married by proxy to a man she'd never met, Amelia recognizes that a fortuitous entry into widowhood frees her from meddling chaperones and matchmakers. Heiress to her mother's sugar plantation in Jamaica, she happily anticipates working in a man's world, with the additional credibility of her new title: Lady Lockwood. But with the arrival of Captain Sir William Drake, her plans quickly go awry . . . William has traversed the Atlantic with one purpose. If he cannot prove that Amelia's marriage to his brother was a fraud, she will be entitled to a sizeable portion of his family's estate. He is determined to return this duplicitous “Lady” to London for an official hearing, and he carries with

him a letter that will ensure her cooperation . . . Left with no choice, Amelia joins the captain on his return voyage to England, and the two quickly find that ship life does not allow for evasion. Amelia and William are ceaselessly thrown together, and amidst fierce storms and ocean battles, what began as antipathy seems to be evolving quite unexpectedly. But as they draw ever closer to their destination, will the impossibility of their circumstances shatter any hope of a future together?

the basics of espionage — including disguise, passing messages, creating diversions, and other maneuvers. What does it take to manage an organization to success? No matter what industry you are in, an organization is primarily a group of people. This book focuses on that ever-important human element. In the rush to get 'lean', many organizations focus solely on tools for increasing productivity, but where do these tools come from? In this book, Collin McLoughlin and Toshihiko Miura look back on their decades of international consulting experience to examine how organizations around the world have transformed on a cultural level by respecting the people who work within them and leveraging their creativity to solve problems. As our workforce becomes more knowledgeable, skillful, and more perceptive of their needs and wants as employees, the ability to reach the true potential of an organization becomes more and more difficult. Managers must look at each individual element of an equation like this in order to fully understand how to achieve an answer. They must begin to answer more focused questions, such as: 1. How productive is the existing work climate and culture? 2. How do employees, as individuals, navigate the existing work climate? (How do they deal with day-to-day issues with each other?) 3. Where and how are individuals and their work processes assessed? 4. What obstacles do employees face every day, and are they empowered to fix these obstacles? 5. What role does leadership play at each level of the organization? (Looking at the organization in layers of management.) To address these challenges, this book focuses on three main aspects of leadership and management: 1. Addressing and Improving the Perspective of Management -- The ideas presented in this book are not limited to a certain industry or field of work, but can be applied in any setting because they speak to a universal human element. 2. Exploring and Improving Work Climate -- Organizations are social entities, operating within their own controlled environment. This book will explore the factors that contribute to, and encourage, a positive work climate. 3. Observing and Eliminating Wasteful Work Processes -- Observing wasteful activities and work processes requires a refined perspective. The case studies presented illustrate the How and Why to help refine expertise. This will also lead to the joy and benefits

This ground-breaking book provides fascinating insights into the fast-emerging body of research that explores the relationship between sport, theology and disability within a social justice framework. In the shadow of two major sport-faith events that fronted the theology of disability sport, the Vatican 's international conference—Sport at the Service of Humanity and the Inaugural Global Congress on Sports and Christianity York St John University, UK, at which Dr Brian Brock led a thematic strand on the topic—this book provides a foundation for further research and practice. This text is a timely and important synthesis of ideas that have emerged in two previously distinct areas of research: (i) ' disability sport ' and (ii) the ' theology of disability ' . Examples of subjects addressed in this text include: elite physical disability sport—Paralympics; intellectual disability sport—Special Olympics; equestrian sport; church, sport and disability, and; theologies of embodiment, competition and mercy. This book, written by leaders in their respective fields, begins a critical conversation on these topics, and many others, for both researchers and practitioners. The chapters originally published in the Journal of Disability and Religion and Quest. The purpose of this MBA Project was to investigate and provide alternative supply chain management strategies to assist Gabilan Manufacturing Inc. in reducing supply chain costs. This project was conducted with the sponsorship and assistance of Gabilan Manufacturing Inc. There were two primary goals of this project. The first was to identify and document the

impact of forecasting errors in an environment where customer forecasts are available to the vendor. The second was to investigate the costs associated with relocating cutting operations as well as the procurement impact of a new cutting machine. Both of these goals relate directly to the overall effort to reduce supply chain costs without a loss of service level to Gabilan's customer.
