Practical teaching Nov 21 2019 Following the success of her previous Practical Teaching guide, Linda Wilson has written the ultimate handbook for the student teacher wishing to pursue the next stage of training in the Lifelong Learning Sector. Practical Teaching: A Guide to PTTLS and DTLLS is the perfect companion for those studying or teaching the PTTLS (Preparing to Teach in the Lifelong Learning Sector) and DTLLS (Diploma of Teaching in the Lifelong Learning Sector) qualifications. Drawing on years of experience in the field, Linda Wilson takes readers through all aspects of teaching and learning; from the initial interviews and inductions through the learning process, to assessment and finally reflection, offering helpful and workable tips for success along the way. This book is directly mapped to the units and learning outcomes of the PTTLS and DTLLS qualifications, and supplies practical ideas for teaching in an easy-to-read style. Essential theory is introduced on a need-to-know basis, and is set in the context of its application within the classroom.

Journeywell Mar 06 2021 Journeywell: A Guide to Quality Aging will help you in that process. You are on a journey from the moment you are born. You move through life in cycles of beginnings and endings, experiencing and changing as you go. This is not a how-to-do-aging book. There is no "right way" to grow old. There is no lock-step path. What is "right" for me may not fit for you at all. It is about possibilities and making good choices. Journeywell helps you reflect on how to be the person you want to be. It asks you to give some thought to how you can make your last years, whether two, ten, twenty, thirty, or very little time as good as it can be. It asks questions for you to ponder. It provides information and suggestions that have worked well for others and asks you to figure out what might work best for you. Better and worse choices could greatly enhance or complicate your later years. Journeywell's goal is to make your own journey easier and more satisfying.

A Guide to Teaching Lawyering Skills Aug 11 2021 This book is designed for teachers of legal writing and research courses. Both new and seasoned legal writing teachers will benefit from the book, whether they are full-time professors, adjuncts, fellows, program directors, or teaching assistants. A Guide to Teaching Lawyering Skills explores the essential components of the teaching process, including setting

course goals; creating a curriculum, syllabus, and assignments; developing teaching methods; providing feedback to students both orally and in writing; evaluating and grading student work; working with teaching assistants; and enhancing professional development. The focus of the book is practical, and its suggestions are specific and concrete. Chapters include a bibliography of additional resources for teachers. *A Guide to Student-centred Learning* May 08 2021 Offering the possibility of a new relationship between teachers and learners, this book describes an approach to teaching styles and student progress, whereby the emphasis is on activity-based learning, rather than on teaching, and on teacher-student collaboration, rather than instruction. The book aims to show how students of any age and ability can take responsibility for their own learning in an environment of positive regard, as teachers become facilitators rather than instructors.

A Guide to Qualitative Field Research May 20 2022 A Guide to Qualitative Field Research provides students with clear, practical, and specific instructions for conducting field research--from selecting a topic to writing the final paper. In the expanded Third Edition, Carol A. Bailey gives increased attention to the early and last stages of field research, often the most difficult: selecting a topic, deciding upon the purpose of your research, and writing the final paper, with a generous number of examples to help readers to generate ideas. While the author's primary focus is face-fo-face field research, she acknowledges that the concept of the "field" has expanded over recent decades to include virtual settings, and so research in the digital world is discussed. Compared to earlier editions which focused solely on an undergraduate readership, this edition more explicitly mentions graduate student research, but selects examples that would not intimidate undergraduate students. Finally, this edition includes more tables, checklists, diagrams, and summary charts, and each chapter has objectives, chapter highlights, and exercises. A glossary of key terms is provided in the back of the book, and additional readings and resources are available on an accompanying website.

London Sep 24 2022 The information in this guide ranges from brief perspectives on the city's architectural history to tips on how to navigate the local public transit system. The book considers architecture not as something that happens on isolated building sites, but rather as social, cultural, and political phenomena. At four inches square, this portable little book is an ideal travel companion. Illustrations.

Karma Jan 04 2021 Combining the ancient wisdom of the Vedic tradition and the point of view of the modern spiritual seeker, Karma illustrates how to find meaning and purpose in a life that can at times feel random and out of control. In this compelling and in-depth introduction to the ancient Hindu concept of karma, spiritual teacher and award-winning author Jeffrey Armstrong explores reincarnation, the deeper mysteries of the soul, the laws of nature, and the ways in which cause and effect influence our lives. Moving beyond Western perceptions of science and luck, Armstrong explores the mystical balance of the universe. These long-secret laws of karma, excavated from the ancient wisdom of India, offer a means to deepen one's spiritual vision and reveal the profoundly interconnected nature of all that exists. The Mandala Wisdom Series is an introductory collection on Eastern wisdom and spirituality, providing readers with the tools to enhance their health and well-being.

The Age of Earthquakes Jun 09 2021 A highly provocative, mindbending, beautifully designed, and visionary look at the landscape of our rapidly evolving digital era. 50 years after Marshall McLuhan's ground breaking book on the influence of technology on culture in *The Medium is the Massage*, Basar, Coupland and Obrist extend the analysis to today, touring the world that's redefined by the Internet, decoding and explaining what they call the 'extreme present'. *THE AGE OF EARTHQUAKES* is a quick-fire paperback, harnessing the images, language and perceptions of our unfurling digital lives. The authors offer five characteristics of the Extreme Present (see below); invent a glossary of new words to describe how we are truly feeling today; and 'mindsources' images and illustrations from over 30 contemporary artists. Wayne Daly's striking graphic design imports the surreal, juxtaposed, mashed mannerisms of screen to page. It's like a culturally prescient, all-knowing email to the reader: possibly the best email they will ever read. Welcome to *THE AGE OF EARTHQUAKES*, a paper portrait of Now, where the Internet hasn't just changed the structure of our brains these past few years, it's also changing the structure of the planet. This is a new history of the world that fits perfectly in your back pocket. 30+ artists contributions: With contributions from Farah Al Qasimi, Ed Atkins, Alessandro Bavo, Gabriele Basilico, Josh Bitelli, James Bridle, Cao Fei, Alex Mackin Dolan, Thomas Dozol, Constant Dullaart, Cecile B Evans, Rami Farook, Hans-Peter Feldmann, GCC, K-Hole, Liam Gillick, Dominique Gonzalez-Foerster, Eloise Hawser, Camille Henrot, Hu Fang, K-Hole, Koo Jeong-A, Katja Novitskova, Lara Ogel, Trevor Paglen, Yuri Patterson, Jon Rafman, Bunny Rogers, Bogosi Sekhukhuni, Taryn Simon, Hito Steyerl, Michael Stipe, Rosemarie Trockel, Amalia Ulman, David Weir, Trevor Yeung.

A Guide to the Good Life: The Ancient Art of Stoic Joy Apr 19 2022 One of the great fears many of us face is that despite all our effort and striving, we will discover at the end that we have wasted our life. In *A Guide to the Good Life*, William B. Irvine plumbs the wisdom of Stoic philosophy, one of the most popular and successful schools of thought in ancient Rome, and shows how its insight and advice are still remarkably applicable to modern lives. In *A Guide to the Good Life*, Irvine offers a refreshing presentation of Stoicism, showing how this ancient philosophy can still direct us toward a better life. Using the psychological insights and the practical techniques of the Stoics, Irvine offers a roadmap for anyone seeking to avoid the feelings of chronic dissatisfaction that plague so many of us. Irvine looks at various Stoic techniques for attaining tranquility and shows how to put these techniques to work in our own life. As he does so, he describes his own experiences practicing Stoicism and offers valuable first-hand advice for anyone wishing to live better by following in the footsteps of these ancient philosophers. Readers learn how to minimize worry, how to let go of the past and focus our efforts on the things we can control, and how to deal with insults, grief, old age, and the distracting temptations of fame and fortune. We learn from Marcus Aurelius the importance of prizing only things of true value, and from Epictetus we learn how to be more content with what we have. Finally, *A Guide to the Good Life* shows readers how to become thoughtful observers of their own lives. If we watch ourselves as we go about our daily business and later reflect on what we saw, we can better identify the sources of distress and eventually avoid that pain in our life. By doing this, the Stoics thought, we can hope to attain a truly joyful life.

Data: A Guide to Humans May 28 2020 Data is humanity's most important new resource. It has the capacity to provide insight into every aspect of our lives, the planet and the universe at large; it changes not only what we know but also how we know it. Exploiting the value of data could improve our existence as much as - if not more than - previous technological revolutions. Yet data without empathy is useless. There is a tendency in data science to forget about the human needs and feelings of the people who make up the data, the people who work with the data, and those expected to understand the results. Without empathy, this precious resource is at best underused, at worst misused. *Data: A Guide to Humans* will help you understand how to properly exploit data, why this is so important, and how companies and governments are currently using data. It makes a compelling case for empathy as the crucial factor in elevating our understanding of data to something which can make a lasting and essential contribution to your business, your life and maybe even the world.

Rebel Footprints Mar 18 2022 The radical response to conservative heritage tours and banal day-tripper guides, *Rebel Footprints* brings to life the history of social movements in the capital. Transporting readers from well-known landmarks to history-making hidden corners, David Rosenberg tells the story of protest and struggle in London from the early nineteenth to the mid-twentieth century. From the suffragettes to the socialists, from the Chartists to the trade unionists, the book invites us to step into the footprints of a diverse cast of dedicated fighters for social justice. Self-directed walks pair with narratives that seamlessly blend history, politics and geography, and beautifully illustrated maps immerse the reader in the story of the city. Whether you are visiting it for the first time, or born and raised in it, Rosenberg invites you to see London as you never have before: the nation's capital as its radical centre.

Western Movies Aug 23 2022 This revised and greatly expanded edition of a well-established reference book presents 5105 feature length (four reels or more) Western films, from the early silent era to the present.
