Bureau of the Centre for the Study of Surrealism and Its Legacy Dec 27 2022
"Recalling the short-lived Bureau de Recherches Surréalistes of 1924-1925 - part information centre and 'public relations' office, and part surrealist archive - Mark Dion has trawled the Manchester Museum's own collections and found the raw material for this book and a new installation in the museum. Museums' attempts to classify and present the world in miniature inevitably mean that much of their collections are forgotten and marginalized. Renowned for his work exploring taxonomy, archaeology and ecology, Mark Dion, in his Bureau documents his opportunistic encounters with the Museum of Manchester's neglected drawers and overlooked recesses that are home to redundant labels, orphaned mounts, defunct teaching models, botanical freaks, Egyptian fakes and the minutiae that have fallen through the cracks of museum practice and lain abandoned. Dion's Bureau of the Centre for the Study of Surrealism and its Legacy is both a repository for the detritus of museum life and a working process, classifying the museum's unclassifiable whilst exploring the bureaucratic workings of the institution."

The Bureau and the Mole Nov 26 2022 The New York Times–bestselling “first-rate spy thriller” of the FBI agent who sold top-secret information to the Russians for more than twenty years (Entertainment Weekly). Drawing from a wide variety of sources in the FBI, the Justice Department, the White House, and the intelligence community, Pulitzer Prize–winning author David A. Vise tells the story of how FBI counterintelligence agent Robert Philip Hanssen employed the very sources and methods his own nation had entrusted to him in a devious game of deceit—simply

because he had something to prove. Vise also interweaves the narrative of how FBI director Louis J. Freeh led the government's desperate search for its betrayer among its own ranks, from the false leads, to the near misses, to its ultimate, shocking conclusion. Fascinating, gripping, and provocative, *The Bureau and the Mole* is a harrowing tale of how one man's treachery rocked a fraternity built on fidelity, bravery, and integrity—and how the dedicated perseverance of another brought him to justice. "Absorbing . . . Vise's account of Mr. Hanssen's road to becoming a double agent is fascinating." —Michiko Kakutani, *The New York Times*

The Freedmen's Bureau and Black Texans Aug 19 2019 A look at the agency's attempts to deliver justice to the Texas black community following the Civil War. Drawing on a wealth of previously unused documentation in the National Archives, this book offers new insights into the workings of the Freedmen's Bureau and the difficulties faced by Texas Bureau officials, who served in a remote and somewhat isolated area with little support from headquarters. "[The] episodes in Texas Reconstruction history that Mr. Crouch relates, perhaps do more than broad generalizations to explain why the Freedmen's Bureau failed, and how we lost the peace after the Civil War." --New York Times Book Review "Crouch skillfully presents the Freedmen's Bureau as one of the most unique, misunderstood, and maligned ad hoc reform agencies ever devised by a democratic government in the name of social and political freedom and equality." --East Texas Historical Journal "Breaks new ground in Reconstruction history. [Crouch's] study is among the first on the bureau in Texas and the first to focus on the subdistrict agent, the subassistant commissioner." --Journal of Southern History

Concrete Revolution Aug 31 2020 Water may seem innocuous, but as a universal necessity, it inevitably intersects with politics when it comes to acquisition, control, and associated technologies. While we know a great deal about the socioecological costs and benefits of modern dams, we know far less about their political origins and ramifications. In *Concrete Revolution*, Christopher Sneddon offers a corrective: a compelling historical account of the US Bureau of Reclamation's contributions to dam technology, Cold War politics, and the social and environmental adversity perpetuated by the US government in its pursuit of economic growth and geopolitical power. Founded in 1902, the Bureau became enmeshed in the US State Department's push for geopolitical power following World War II, a response to the Soviet Union's increasing global sway. By offering technical and water resource management advice to the world's underdeveloped regions, the Bureau found that it could not only provide them with economic assistance and the United States with investment opportunities, but also forge alliances and shore up a country's global standing in the face of burgeoning communist influence. Drawing on a number of international case studies—from the Bureau's early forays into overseas development and the launch of its Foreign Activities Office in 1950 to the Blue Nile investigation in Ethiopia—*Concrete Revolution* offers insights into this historic damming boom, with vital implications for the present. If, Sneddon argues, we can understand dams as both technical and political objects rather than instruments of impartial science, we can better participate in current debates about large dams and river basin planning.

The Compensation Bureau Oct 25 2022 "I have created for each of you a fate, one tailored specifically for your needs and desires. Each of you has a defining moment--not before, not after--when a wrong turn or decision led to the disastrous outcome that you and I mourn. To isolate that malignant moment is an exacting, exhaustive process, which only the most well-trained and competent professionals, armed with the most sophisticated of predictive models and processing power, can accomplish. You can put your trust in me, as you would in an expert surgeon, a surgeon of the soul." On a distant planet overlooking Earth, the nameless protagonist of The Compensation Bureau is one of a team of Actuaries at work on the innovative Lazarus Project. Conceived in response to the shocking violence observed in humankind, the project identifies people who have wrongfully died at the hands of others--whether victims of war, hate crimes, or random brutality--and attempts to compensate for the cruelty and pain they faced in life and death. But balancing the accounts for the sufferings and wrongdoings of humanity proves hardly a clinical exercise. The Actuary soon finds himself personally invested in the project's mission, and the goals of the project itself are complicated as the fate of Earth's inhabitants becomes more uncertain. The Compensation Bureau explores the power of individual and collective action, from a writer hailed by The Washington Post as "a world-novelist of the first category."

The Bureau of Past Management Mar 18 2022 Each of us has something that feels essential to who we are. For Hans Frambach, it's the crimes of the Nazi era, which have hurt him for as long as he can remember. That's why he became an archivist at the Bureau of Past Management; now, though, he's wondering if he should make a change. For his best friend, Graziela, that past was also her focal point – until she met a man who desired her. From then on, sexual pleasure became the key to her life; a concept she's now beginning to doubt. Hans and Graziela thought the Nazi crimes were the inheritance that neither could bear, but can we really blame Nazism for everything? Iris Hanika shows how the crimes of the Nazi era hold the Germans in their clutches to this day, and the absurdities to which institutionalising commemoration leads. Can a country manage its past, or ought we to remain helpless in the face of the horrific crimes of the Holocaust?

Thoughts on Design Jul 30 2020 One of the seminal texts of graphic design, Paul Rand's *Thoughts on Design* is now available for the first time since the 1970s. Writing at the height of his career, Rand articulated in his slender volume the pioneering vision that all design should seamlessly integrate form and function. This facsimile edition preserves Rand's original 1947 essay with the adjustments he made to its text and imagery for a revised printing in 1970, and adds only an informative and inspiring new foreword by design luminary Michael Bierut. As relevant today as it was when first published, this classic treatise is an indispensable addition to the library of every designer.

Under the Guardianship of the Nation Aug 23 2022 The Freedmen's Bureau was an extraordinary agency established by Congress in 1865, born of the expansion of federal power during the Civil War and the Union's desire to protect and provide for the South's emancipated slaves. Charged with the mandate to change the southern racial "status quo" in education, civil rights, and labor, the Bureau was in a

position to play a crucial role in the implementation of Reconstruction policy. The ineffectiveness of the Bureau in Georgia and other southern states has often been blamed on the racism of its northern administrators, but Paul A. Cimbala finds the explanation to be much more complex. In this remarkably balanced account, he blames the failure on a combination of the Bureau's northern free-labor ideology, limited resources, and temporary nature--as well as deeply rooted white southern hostility toward change. Because of these factors, the Bureau in practice left freedpeople and ex-masters to create their own new social, political, and economic arrangements.

The Bureau Of Indian Affairs Jun 28 2020 Landmark legislation, such as the Indian Self-Determination and Education Assistance Act of 1975, as well as increasing federal subsidies for Native Americans, growing demand for the energy resources located on the 50 million acres of Native American lands, expanding numbers of Native Americans and their interest groups, devastating reservation unemployment, and other factors have in the last decade radically changed the environment in which the Bureau of Indian Affairs (BIA) operates. This book presents an up-to-date description and analysis of the BIA, including its missions, organization, functions, administration, problems, and decision-making and -implementing processes. Attention is given, too, to the often friction-laden interactions of the BIA and other governmental units (among them the Department of the Interior, Office of Management and Budget, Congress, the courts, Indian Health Service, and tribal, state, and local governments) with each other and with Indian interests. Abundant tables provide information on such topics as the 1980 Indian population and land by state, BIA budgets, and agricultural and mineral production on Indian lands. Dr. Taylor examines the current operations of the Bureau under the Reagan administration and explores possible policy decisions that will affect Native Americans as well as non-Indian citizens. The book includes a foreword by Phillip Martin, chief of the Mississippi Band of Choctaw Indians and president of the National Tribal Chairmen's Association.

Theatre of the Natural World Mar 06 2021 Accompanying his first major UK exhibition in a decade, this unique publication focuses on five works by the American conceptual artist Mark Dion. Since the late 1980s Dion (b. 1961, Massachusetts) has been delving into the tropes and research methods of scientists, explorers, museum curators and archaeologists. He has created a body of work that playfully presents art as scientific enquiry or field work, questioning how knowledge is gathered, classified and displayed. Five installations will be displayed at Whitechapel Gallery: a scholar's study invites us to unravel intricate drawings and models; the Bureau for the Centre of the Study for Surrealism and its Legacy displays the strange magic of obsolete things; the muddy banks of the Thames have also yielded their treasures for poetic display in a gigantic cabinet; while a Dickensian Curiosity Shop tempts us with the bizarre aura of American bric-a-brac. Each immersive environment is also a habitat, evoking the characters that observe, conserve or exploit the natural world. The catalogue features new short essays on each of the exhibited works, an interview between the artist and Iwona Blazwick and a reprint of a short story by National Book Award for Fiction winner Andrea Barrett.

The Million Dollar Duchesses Apr 07 2021 On 6 November 1895 Consuelo Vanderbilt married Charles Spencer-Churchill, 9th Duke of Marlborough. Though the preceding months had included spurned loves, unexpected deaths, scandal and illicit affairs, the wedding was the crowning moment for the unofficial marriage brokers, Lady Minnie Paget and Consuelo Yzanga, Dowager Duchess of Manchester, the original buccaneers who had instructed, cajoled and manipulated wealthy young heiresses into making the perfect match. Fame, money, power, prestige, perhaps even love - these were some of the reasons for the marriages that took place between wealthy American heiresses and the English aristocracy in 1895. For a few, the marriages were happy but for many others, the matches brought loneliness, infidelity, bankruptcy and divorce. Focusing on a single year, The Transatlantic Marriage Bureau tells the story of a group of wealthy American heiresses seeking to marry into the English aristocracy. From the beautiful and eligible debutante Consuelo Vanderbilt, in love with a dashing older man but thwarted by her controlling mother, Washington society heiress Mary Leiter who married the pompous Lord Curzon and became the Vicereine of India, Maud Burke, vivacious San Francisco belle with a questionable background, this book uncovers their stories. Also revealed is the hidden role played Lady Minnie Paget and Consuelo Yzanga, Dowager Duchess of Manchester, two unofficial marriage brokers who taught the heiresses how to use every social trick in the book to land their dream husband. The Transatlantic Marriage Bureau dashes through the year to uncover the seasons, the parties, the money, the glamour, the gossip, the scandal and the titles, always with one eye on the two women who made it all

possible.

The Folk Singers and the Bureau Apr 19 2022 The first book to document the efforts of the FBI against the most famous American folk singers of the mid-twentieth century, including Woody Guthrie, 'Sis Cunningham, Pete Seeger, Lee Hays and Burl Ives. Some of the most prominent folk singers of the twentieth century, including Woody Guthrie, 'Sis Cunningham, Pete Seeger, Lee Hays, Burl Ives, etc., were also political activists with various associations with the American Communist Party. As a consequence, the FBI, along with other governmental and right-wing organizations, were monitoring them, keeping meticulous files running many thousands of pages, and making (and carrying out) plans to purge them from the cultural realm. In *The Folk Singers and the Bureau*, Aaron J Leonard draws on an unprecedented array of declassified documents and never before released files to shed light on the interplay between left-wing folk artists and their relationship with the American Communist Party, and how it put them in the US government's repressive cross hairs. At a time of increasing state surveillance and repression, *The Folk Singers and the Bureau* shows how the FBI and other governmental agencies have attempted to shape and repress American culture.

Bureau of Lost Dec 23 2019

The Marriage Bureau Dec 03 2020 For fans of *Call the Midwife* and *Downton Abbey*, a charming and vivid portrait of the business of match-making in 1940s London, England In the spring of 1939, with the Second World War looming, two determined twenty-four-year-olds, Heather Jenner and Mary Oliver, decided to open a marriage bureau. They found a tiny office on London's Bond Street and set about the delicate business of match-making. Drawing on the bureau's extensive archives, author Penrose Halson—who many years later found herself the proprietor of the bureau—tells Heather and Mary's story, and the stories of their clients. We meet a remarkable cross-section of British society in the 1940s: gents with a "merry twinkle," potential fifth-columnists, nervous spinsters, isolated farmers seeking "a nice quiet affekshunate girl" and girls looking "exactly" like Greta Garbo and Vivien Leigh, all desperately longing to find The One. And thanks to Heather and Mary, they almost always did just that. A riveting glimpse of life and love during and after the war, *The Marriage Bureau*—which is in development for television—is not only a heart-warming and absorbing account of a world gone by, but also touches upon timeless themes. "Be it 1946 or 2016, we still worry about money, ailing parents, loneliness and finding someone to love." (Daily Mail [UK])

Ces quatre jours de stage où chacun vient se dépasser professionnellement prendront vite une tournure inattendue, y compris pour Kate.
